NR	NY9460	Letah Wood	8-Sep-2019	Comma	1	

sheltered area was clear-felled a few years ago and re-planted with Lodgepole Pine and Larch. There is much bilberry and heather recolonisation and the Green Hairstreak were found everywhere in this area, centred on NY972613, with total of 40 found, in groups of 2-3, in the bright sunshine. Bilberry is the food plant for the Green Hairstreak larvae; the adult butterflies seemed to be extracting some resin from the tips of the young pine shoots for
